## SUMMARY

Management-oriented IT professional with hands-on experience in web development and technical team coordination. Skilled in overseeing development workflows, aligning technical execution with project goals, and ensuring timely delivery of high-quality software solutions. Adept in Front-End and Back-End development, enabling effective communication between technical and non-technical stakeholders. Looking for roles in management or software development where leadership capability and technical insight can drive team performance and product success.

## EXPERIENCES

**PT. Eluon** **South Jakarta, ID**

**Full-Stack Developer** *Jun 2025 - Present*

- Contribute as a Fullstack Developer in designing, developing, and maintaining web applications across Front-End and Back-End layers, ensuring system reliability and performance.
- Collaborated with cross-functional teams to translate business requirements into technical solutions while coordinating development activities to maintain project timelines.
- Delivered a production-ready system within a 2-month timeline, achieving minimal defects after successfully passing System Integration Testing (SIT) and User Acceptance Testing (UAT).

**KUPS KALIMANTAN UTARA** **Malang, ID**

**Back-End Developer (Final Project)** *Feb 2023 - Jan 2024*

- Created the Back-End of the SOBAT-PS Marketplace Web and Mobile based application, using the Laravel and Lumen frameworks within 3 months.
- Carried out analysis and testing to compare which framework is the best between Laravel and Lumen, with a scale of application usage in the form of a population of 1 province.

**KELUARGA BESAR MAHASISWA TEKNOLOGI INFORMASI** **Malang, ID**

**Head of Human Resource Development Department** *Feb 2022 - Jan 2023*

- Led a team of 8 members in guiding and organizing IT students with interests in academic and non-academic fields, ensuring their active participation and engagement in university activities.
- Led the IT course regeneration program, overseeing the introduction of the program to the Study Program and facilitating the Basic Level Student Management Skills Training certification.
- Led recruitment and talent development efforts for new students, identifying potential leaders and ensuring smooth transitions within the department.

## EDUCATION

**DIBIMBING.ID** **Online, ID**

**Student Member - Bootcamp** *Aug 2024 - Feb 2025*

- Participated in a Golang Back-End Development learning program that implements Project-Based Learning, within a period of 6 months.
- Used the Gin Gonic Framework & GORM, JWT for authentication, and MySQL database while working on the projects provided during the learning period.
- Received the Most Valuable Performer award when the bootcamp ended.

**BINAR ACADEMY** **Online, ID**

**Student Member - MBKM MSIB Batch 2** *Feb 2022 - Jul 2022*

- Engaged a Full Stack Web Development learned program that implements Project-Based Learning, namely learning based on projects provided by Binar Academy within 2 months.
- Utilized the Node.js interpreter and the Express.js framework as Back-End, while the Front-End used the CSS framework, Bootstrap.

**BRAWIJAYA UNIVERSITY** **Malang, ID**
**Bachelor Degree (S-1) - Information Technology** *Aug 2019 - Jan 2024*
GPA: 3.76

- Learned about Web Programming and Project Management, which is useful as a guide in developing web applications and is not only beneficial for IT project management, but also useful in general.
- Created a website for buying and selling used goods while attending MSIB. Create a website for bargaining for forest products in the thesis.
- The title of my thesis is Comparison of Laravel and Lumen Framework Performance Testing on SOBAT-PS Service Based Architecture Using JMeter and Postman (Case Study: KUPS North Kalimantan).

## PROJECT

**Ticketing Management System** *Jan 2025 - Jan 2025*
Details : Developed the Back-End of Ticketing Management System, using the Gin Gonic framework and GORM within 3 days.
Tools : Go, Gin Gonic, GORM, MySQL, Postman.
Link : GitHub

**Inventory Management & Sales Transaction System** *Jan 2025 - Jan 2025*
Details : Developed the Back-End of Inventory Management & Sales Transaction System, using the Gin Gonic framework and GORM within 1 week.
Tools : Go, Gin Gonic, GORM, MySQL, Postman.
Link : GitHub

**SOBAT-PS Marketplace** *Feb 2023 - Jan 2024*
Details : Creating the Back-End of the SOBAT-PS Marketplace Web and Mobile based application, using the Laravel and Lumen frameworks within 3 months, and carrying out maintenance until the project period ends.
Tools : PHP, Laravel, Lumen, MySQL, Postman.
Link : Web Application
Demo : Web | Mobile

## CERTIFICATIONS

**Belajar Dasar Manajemen Proyek** *Jul 2023 - Jul 2023*
